

the best in the business

An independent survey of clients for all Renovator of the Year finalists was a key component of the judging process. Testimonials highlighted the commitment Carick Home Improvements makes to meeting expectations. Client remarks ranged from, "This is as good as I've seen," to "Final price matched estimate right down to the dollar except for the few things we upgraded." Another client reported, "So clean, so neat, so polite — it was just wonderful."

In other categories, Northern Edge Construction garnered the Award for Best Renovation over \$300,000 for extensive renovation to a 1960's home in the Lawrence-Bayview area that was starting to show its age. The project also won an Award from the Ontario Home Builders' Association.

More than 800 square feet of new living space was added including a new master ensuite, many of the existing rooms were remodeled and updated and the basement floor was lowered to create a media room and play area. A dramatic new stone and stucco exterior was created, extending the turret and adding another storey over the garage.

Renovator of the Year Carick Home Improvements

Best Renovation over \$300,000
